Historia

Entonces realmente tanto
Linux como Git surgieron,

A man in a blue shirt and yellow pants is seated on the left, gesturing with his hands while speaking. A man in a green shirt and dark pants is seated on the right, listening. They are on a stage with a red carpet and a red backdrop. A small table with two glasses of water is between them. The audience's heads are visible in the foreground.

Entonces realmente tanto
Linux como Git surgieron,

de tu deseo de no querer
trabajar con mucha gente.

Syntax highlighter popup window punishes user for not using fine mouse motor control #104691

[New issue](#)**Closed**

wilsoncg opened this issue on Aug 14, 2020 · 0 comments

wilsoncg commented on Aug 14, 2020

Issue Type: Bug

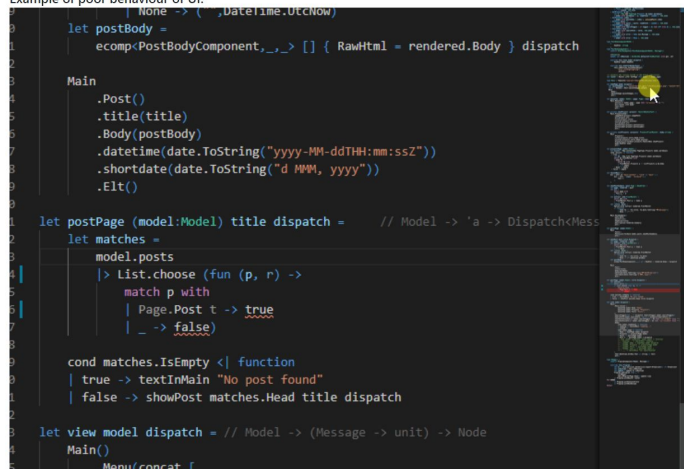

The syntax highlighter popup does not respond to middle click, nor up/down pgup/pgdown keyboard input. It can only be scrolled up/down by selecting the scrollbar with the mouse, which just happens to vanish when the cursor moves over the border of the popup window, even when holding left click to keep the scrollbar active. So if I overshoot just a touch past the scrollbar, I'm punished and told to try again!

The user should not be punished for not using precise motor control.

Steps to reproduce:

- Create new F# project (dotnet new classlib --language F#)
- Split screen into 2 columns
- Open project and attempt to use syntax highlighter, notice that even when holding left click in the popup scrollbar, if the cursor moves over the edge of the popup window, the window is destroyed.

Example of poor behaviour of UI:

This PR fixes #104691

 Kapture.2021-01-24.at.18.54.22.mp4 ▾

```
const bodyElStyle = document.body.style;
const top = useRef(0);
useLayoutEffect(() => {
  if (fixPage) {
    top.current = supportPageOffset
      ? window.pageYOffset
      : isCSS1Compat
        ? document.documentElement.scrollTop
        : document.body.scrollTop;
    bodyElStyle.position = 'fixed';
    bodyElStyle.top = `${-top.current}px`;
  } else {
    bodyElStyle.position = '';
    bodyElStyle.top = '';
    window.scrollTo(0, top.current);
  }
}, [bodyElStyle, fixPage]);

return [fixPage, setFixPage];
}
```
